Model: YY2950

If water or foreign matter enters the unit, it may result in fire or electric shock. If water or foreign matter enters the unit, stop use immediately and consult your nearest Sony dealer. In particular, be careful in the following cases:

- When using the unit near a sink or liquid container. Be careful that the unit does not fall into a sink or container filled with water.
- When using the unit in the rain or snow, or in humid locations.

For details on the effects of contact with the human body from the mobile phone or other wireless devices connected to the unit, refer to the instruction manual of the wireless device.

If the earbud tips are not securely attached, they may fall off and remain inside the ear during use. Make sure that the earbud tips are securely attached before use.

Never insert the USB plug when the unit or charging cable is wet. If the USB plug is inserted while the unit or charging cable is wet, a short circuit may occur and cause the unit to overheat, soft drink, etc. or foreign matter on the unit or charging cable, and cause abnormal heat generation or malfunction.

After extended periods of storage, it may be necessary to charge and discharge the cells or batteries several times to obtain maximum performance.
