Material Safety Data Sheet

Methods for Cleaning up:

It is recommended that customers use disposable containers and utensils whenever possible to simplify clean-up. However, when disposable materials are impractical, TM30 can be removed by cleaning equipment with a solvent such as isopropyl alcohol. Observe appropriate precautions when using flammable solvents. Solvent-cleaned utensils should be thoroughly dried before reuse. Any remaining solvent can contaminate TM30 during the next application or use.

7. Handling and Storage:

Handling: Use with adequate ventilation. Avoid eye contact. Do not take internally. Exercise good industrial hygiene practice. Wash after handling, especially before eating, drinking or smoking.

Storage: TM30 has a shelf life of two years at 25°C - 30°C. TM30 should be stored at 5°C to retain optimal properties.
