WITHINGS

The at-home check-up revolution

Crucial Health Benefits

DETECT FEVER WITH CLINICAL ACCURACY

BeamO can automatically identify the temporal artery, without direct contact, to ensure accurate temperature readings.

THERMOMETER | FEVER DETECTION | TIMELINE OF SYMPTOMS

ASSESS THE CARDIOVASCULAR SYSTEM

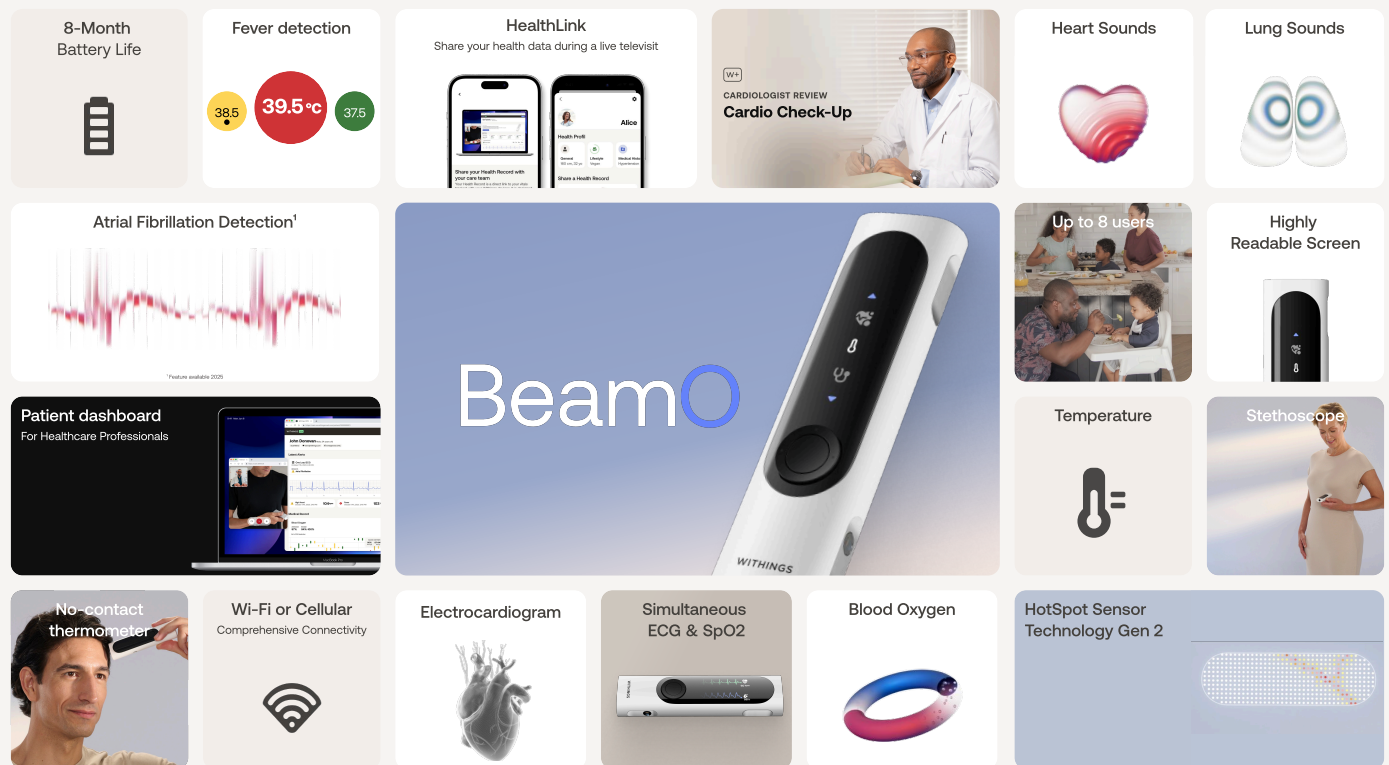

Record a medical-grade electrocardiogram to detect atrial fibrillation, the most common arrhythmia. The embedded digital stethoscope can capture your heart sounds.

1-LEAD ELECTROCARDIOGRAM | A-FIB DETECTION | HEART RATE | HEART SOUNDS | HEART MURMURS

ASSESS THE RESPIRATORY SYSTEM

Evaluate your oxygen saturation level (SpO2). Embedded state-of-the-art oximeter can assess the efficiency of part of your respiratory system. The embedded digital stethoscope can capture your lung sounds.

SPO2 | PULSE RATE | SPO2 TRENDS | LUNG SOUNDS

Detailed Metrics

THERMOMETER

- Automatic temporal artery detection
- Body temperature
- Fever detection

ELECTROCARDIOGRAM

- Heart rate
- AFib detection

STETHOSCOPE

- Cardiovascular auscultation
- Respiratory auscultation
- Wide auscultation

OXIMETER

- Blood oxygen levels
- Pulse rate

Ultra-compact and shock resistant

Up to 8-month rechargeable battery

Data shareable with your doctor

Highly readable color screen

Up to 8 users on one device

Enhanced Telehealth

With BeamO, you can easily take your health measurements from the comfort of your home. Your doctor can access these measurements in real-time, regardless of their location, enabling them to provide you with accurate and personalized diagnoses.

Cardio Check-Up

We will provide a detailed medical review of our users heart health from a certified cardiologist in less than 24h.

Share your ECG and all your Withings health data with our board-certified cardiologists

Get a clinical review of an ECG within 24 hours

Your data is secure, as no directly identifiable information is shared

Up to 4 Cardio Check-Ups are included annually with Withings+

HealthLink For live televisits

With the HealthLink platform, doctors can access your complete health history alongside real-time measurements.

Share a PDF report With your doctor

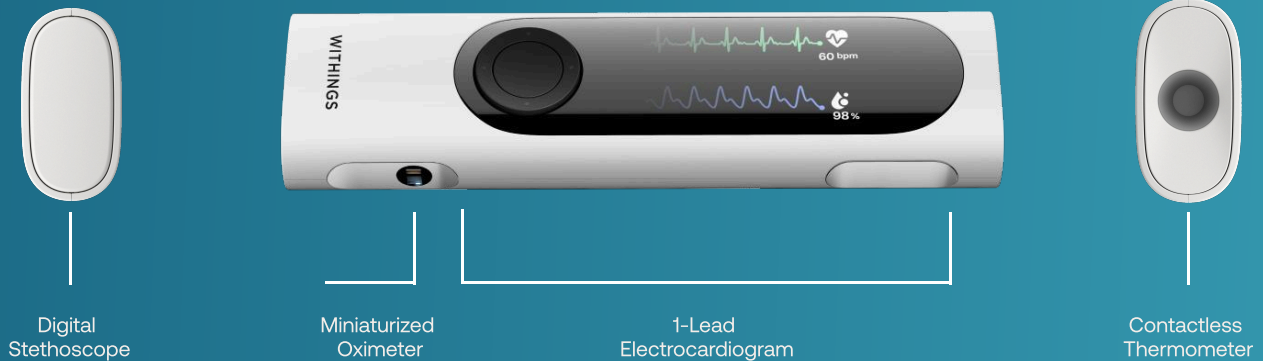

Your comprehensive health data is compiled into a PDF report, easily shareable with your doctors via the "Share" tab.

Leading-edge technology

Measure much more than temperature:
assess the cardiovascular and respiratory system.

4-in-1 MultiScan™

State-of-the-art sensors & algorithms

CONTACTLESS THERMOMETER

Building on the success of our award-winning Thermo, the recipient of the 2016 CES Best of Innovation Award, BeamO features advanced 2nd generation HotSpot sensor technology. This enhanced sensor is designed for greater robustness and sensitivity to distance and movement, allowing it to accurately detect the hottest point on the forehead. It ensures a stable and precise medical-grade measurement of core body temperature, providing clinically accurate fever detection.

1-LEAD ELECTROCARDIOGRAM

Embedded stainless steel electrodes record a single-lead electrocardiogram (ECG), capturing the heart's electrical activity to enable atrial fibrillation detection.

MINIATURIZED OXIMETER

The pulse oximeter uses multiple light wavelengths to accurately determine blood oxygenation levels in seconds.

DIGITAL STETHOSCOPE

Heart and lung sounds are recorded by an embedded electronic digital stethoscope, featuring a highly sensitive piezoelectric sensor for precise signal acquisition. You can listen to these sounds live by plugging earphones into BeamO, and they are also accessible in the Withings app for playback or sharing with your doctor.

Technical Facts

Design

WEIGHT & DIMENSIONS

Dimensions: 3.7 x 1.9 x 13.6 cm
Weight: 80 g

COLOR SCREEN DISPLAY

RGB TFT LCD display
170 x 320 px, 191 PPI, 1.9"
16-bit high color

MATERIALS

Stainless steel electrodes
Polycarbonate body
Silicone membrane

SENSORS

HotSpot Gen2™ temperature sensor
2 electrodes
Multi-wavelength PPG sensor
Piezoelectric sensor
Force sensor

BATTERY

8-month battery life
Charging time: 1 hour
USB-C port

App & software

CONNECTIVITY

Bluetooth® Low Energy
Wi-Fi 2.4GHz b/g/n
LTE Cat-M1 (optional)

WITHINGS APP

Available on: App Store (iOS), Google Play Store (Android)
Apple Health, Google Health Connect & Google Fit compatible
Withings App Web Dashboard
iPhone, iPad, or iPod Touch with iOS 16 and higher, or Android device with OS 9 and higher
Cannot be set up from a computer

STORAGE & MEMORY

Free and unlimited storage of all health data online
