1. Microphone On/Off
2. Vibration On/Off
3. Volume +/Volume -
4. 2 male to 1 female mini jack adapter
5. 3.5 mm jack audio cable
6. USB cable

## Main functions

### Switching on and off the device

Plug the *3.5 mm jack audio cable (5)* and the *USB cable (6)* into your PC or console to start using your *Headphones ESG 5 Shock*. If your source device features two separate audio and microphone connections, you can use the *2 male to 1 female mini jack adapter (4)* that comes with the product.

### Other functions

Make the most of your gaming experience using the buttons below:

- Set the desired volume level using *Volume +/Volume - (3)*.

- Slide the *Microphone On/Off (1)* switch up or down to switch on or off the microphone.
- Press the *Vibration On/Off (2)* button to switch on or off the vibration mode.

**Note:** We recommend leaving a distance of approximately 5 cm between lips and microphone to ensure optimal performance.

## Safety

---

- Before using the headphones, turn the volume down and slowly turn it up until you set an appropriate volume level.
- Avoid noisy environments that force you to turn up the volume really high when using your headphones.
- Listening to loud music over a long period of time may cause your ears to get used to high volume levels, resulting in irreversible hearing loss.
- Adjust the volume of your headphones to hear important external sounds.
