

PTV 50GQU-5025C

Product Description

Whether "Smart TV", "Connected TV" or "Hybrid TV", it always means the same thing: a television that not only shows the normal television program, but can also access the Internet and thus offers a variety of entertainment options. If you're interested in purchasing such an all-rounder, then you should definitely take a closer look at the 50" Google QLED UHD TV "PTV 50GQU-5025C" from PEAQ. Just one glance is enough to tell you that this is a special device. The black exterior of the TV makes this clear. What technology is this TV based on? Excellent colors thanks to Quantum Dot Light Emitting Diode technology: This TV boasts QLED picture quality. At the heart of the device is a powerful MT9603 chip. If you don't want your TV to stand on a stand, get a suitable mount and simply attach it to a wall; its VESA standard is 200x200mm. What picture features does the TV have? The screen has the now universally accepted 16:9 format, which allows you to enjoy films and other programs optimally. At 3840x2160, the flat screen has a standard resolution that still delivers a high-quality picture. produced. The image is further optimized by the HDR image enhancement feature. The screen has a contrast ratio of 1200:1, which describes the device's ability to differentiate between black and white. The higher this value, the sharper and richer the contrast. The brightness or luminance of the TV is 330 cd/m². The higher the luminance, the better the screen can be seen, especially in incident light. A fast response time is particularly important for fast-paced films and games. This is 9 ms for the PEAQ product. What ports, interfaces, and connections does the TV have? You can also connect devices to the TV via two USB ports. The available streaming services are: Amazon Prime Video, Disney+, Netflix, and YouTube. What makes this TV so special? Of course, there is also a parental control that prevents your children from unhindered access to all channels and functions. Easily control the product with the Smart Remote on your smartphone.
