

ISC-1132

Smartphone case

Product Description

This type of case is a back cover. The product becomes particularly grippy thanks to the materials used (thermoplastic polyurethane (TPU) and polycarbonate). The case is compatible with Apple devices. Precise protection for the following model: iPhone 17 Pro Max. To further strengthen device protection, this case is shock-resistant. It can happen unexpectedly that a smartphone is exposed to small splashes of liquid. The splash resistance therefore protects your smartphone from unpleasant consequences. The product also offers the following features: crystal-clear TPU provides transparency and careful protection; the integrated magnetic ring assists automatic alignment with your wireless charger; supports charging via MagSafe; controls and ports remain fully accessible; preserves the original look of the smartphone thanks to its transparent design; flexible and non-slip; and protects against shocks and scratches.

Technical Data
