Wireless Speaker

For customers in the UK

STATEMENT OF COMPLIANCE

1. Model No.: Y77856E
2. Name and address of the manufacturer's authorised representative: Sony Europe B.V., The Heights, Brooklands, Weybridge, Surrey, KT13 0XW, United Kingdom

3. This statement of compliance is issued under the sole responsibility of the manufacturer: Sony Corporation, 1-7-1 Konan Minato-ku Tokyo, 108-0075 Japan
4. Object of the statement: Wireless Speaker
5. The object of the statement described above is in compliance with the applicable security requirements in Schedule 1 of S.I. 2023 No. 1007 (Product Security)

6. Where applicable, references to the relevant standards used in relation to which compliance is declared:
7. Defined support period for security updates: 2027-07-03
8. Additional information for security updates:
Notes):

Signed for and on behalf of: Sony Europe B.V.

Uses of the Rd1 Sony.net/help/faq/page/2323/
This product may be used for a purpose other than the one specified in the manual. However, the use of this product for any other purpose than that specified in the manual is not guaranteed. Sony is not responsible for the operation of this device or its compliance with safety and regulatory standards. Services offered by this manufacturer may be changed, discontinued or terminated without prior notice. Sony does not bear any responsibility in these sorts of situations.

Notes on waterproof and dustproof features (Read before using the unit)
The supplied accessories are neither waterproof nor dustproof.

Waterproof and dustproof performance of the unit
The unit, with the cap fastened securely, has a waterproof specification (IPX7) as specified in the IEC60529 (Ingress Protection Rating (IP Code)), and a dustproof specification of IP5X as specified in (Degree of protection against solid foreign objects).
The supplied accessories and the connectors of this unit (USB) are neither water resistant nor dustproof. To reduce the risk of fires or electric shocks, do not expose the unit to water or droplets while using any connectors (USB).

Note that malfunctions as a result of water immersion or dust intrusion caused by misuse by the customer are not covered by the warranty.

To avoid the deterioration of waterproof and dustproof performance
Carefully note the precautions below to ensure proper use of this unit. This unit does not have a design that is resistant to water pressure. Use the unit in a location where high water pressure is applied, such as in contact with Haut or Augen kommen.
Do not pour high-temperature water or blow hot air from a hair dryer or any other appliance on the unit directly. Also never use it in a heat source or subject to high temperatures, such as in a sauna or near a heat source.

CAUTION - Handle the cap (A) (D) with care. The cap plays a very important role in maintenance of the water resistant and dustproof performance. When using the unit, make sure that the cap is closed completely. When closing the cap, be careful not to allow foreign objects inside. If the cap is not closed completely, the water resistant and dustproof performance may deteriorate and may cause a malfunction of internet address.

Battery Manufacturer: Springpower
Springpower Technology (Shenzhen) Co., Ltd.
No.21, 221 Renmin Road, Fumin Community, Fucheng Sub-district, Longhua District, Shenzhen City, Guangdong Province, P.R.China
VDL
Chongqing VDL Electronics Co., Ltd.
Building 1-4, Pull Industrial New Area, Zhaojia Street, Kaizhou District, Chongqing, P.R.China
This unit is stined with foreign substances (sunscreen, suntan cream, etc.).
When the quality may change when water enters the speaker or moisture radiator section of the unit. It is not automatic. Wipe off the moisture on its surface, and put the unit on a dry cloth to drain the collected water inside the unit. Then, dry the unit in an airy place until no moisture remains.

How to care for the unit
You can use the unit more comfortably and for a longer period of time by following the maintenance procedure below.
If the surface of the unit is soiled in the following cases, wash it with fresh water (tap water, etc.) promptly to remove the dirt. Leaving dirt on its surface may cause the surface to discolor or deteriorate, or it may cause unit malfunction.
-When salt, sand, etc. is stuck on the unit after using it on a beach, pool side, etc.
-Toil, etc.
When the unit is stained with foreign substances (sunscreen, suntan cream, etc.).
When the quality may change when water enters the speaker or moisture radiator section of the unit. It is not automatic. Wipe off the moisture on its surface, and put the unit on a dry cloth to drain the collected water inside the unit. Then, dry the unit in an airy place until no moisture remains.

Notes
If the surface of the unit gets dirty, do not use detergent, thinner, benzine, alcohol, etc. to clean the unit because it will affect the water resistant function of the cap. Be careful not to allow foreign objects inside.
*Especially in cold countries, be sure to wipe off the moisture after using the unit. Leaving moisture on its surface may cause the unit to freeze and malfunction.

Disposal of waste materials and electrical and electronic equipment applicable in the European Union and other countries with separate collection packaging systems
This symbol on the product, the battery or on the packaging indicates that the product and the battery shall not be treated as household waste. On certain types of batteries, this symbol is used in combination with a chemical symbol. The chemical symbol for lead (Pb) is often found on the battery. The battery contains more than 0.0004% lead. By ensuring that these products and batteries do not end up in the general waste, you can prevent potentially negative consequences for the environment and human health which could be caused by inappropriate waste handling. The recycling of waste materials and electrical and electronic equipment in case of products that, for safety or data integrity reasons, require a permanent connection with an incorporated battery, this battery should be replaced by qualified service personnel. Do not subject the battery and the electrical and electronic equipment will be treated properly, hand over these products at end-of-life to the appropriate collection point for recycling of electrical and electronic equipment. For all other batteries, please view the section on how to remove the battery from the product safely. Hand the battery over to the appropriate collection point for the recycling of waste batteries. For more detailed information about recycling of this product or battery, please contact your local CEU.
Your household waste disposal service or the shop where you purchased the product or battery.

Do not expose the batteries (battery pack or batteries installed) to excessive heat, such as the like for a long time.
Do not subject the batteries to extreme low temperature conditions that may result in overheating and thermal runaway.
The recycling of waste materials and electrical and electronic equipment in case of products that, for safety or data integrity reasons, require a permanent connection with an incorporated battery, this battery should be replaced by qualified service personnel. 1.6 – 2.5 W

Mass (including battery)
Approx. 274 g
Included items
USB Type-C® cable (USB-A to USB-C)* (1)
Strap (1) (attached to the unit)
Documents (1 set)

*1 The built-in battery life after use is measured using our specified music source. Actual playback time will vary from the listed time due to the volume, songs played, surrounding temperature, and usage conditions.
*2 Intention charging for the empty battery to be fully charged (100%) while the unit is powered off.
*3 Provided that a USA AC adaptor capable of delivering an output current of 1.5 A (500 mA) is used.
*4 A charging cable exclusively designed for the unit. Do not use the cable for any other purposes.

System requirements for charging battery pack with USB
Using a commercially available USB AC adaptor capable of delivering an output current of DC 5 V 0.5 A (500 mA)

Design and specifications are subject to change without notice.

*Especially in cold countries, be sure to wipe off the moisture after using the unit. Leaving moisture on its surface may cause the unit to freeze and malfunction.

Disposal of waste materials and electrical and electronic equipment applicable in the European Union and other countries with separate collection packaging systems
This symbol on the product, the battery or on the packaging indicates that the product and the battery shall not be treated as household waste. On certain types of batteries, this symbol is used in combination with a chemical symbol. The chemical symbol for lead (Pb) is often found on the battery. The battery contains more than 0.0004% lead. By ensuring that these products and batteries do not end up in the general waste, you can prevent potentially negative consequences for the environment and human health which could be caused by inappropriate waste handling. The recycling of waste materials and electrical and electronic equipment in case of products that, for safety or data integrity reasons, require a permanent connection with an incorporated battery, this battery should be replaced by qualified service personnel. Do not subject the battery and the electrical and electronic equipment will be treated properly, hand over these products at end-of-life to the appropriate collection point for recycling of electrical and electronic equipment. For all other batteries, please view the section on how to remove the battery from the product safely. Hand the battery over to the appropriate collection point for the recycling of waste batteries. For more detailed information about recycling of this product or battery, please contact your local CEU.
Your household waste disposal service or the shop where you purchased the product or battery.

Do not expose the batteries (battery pack or batteries installed) to excessive heat, such as the like for a long time.
Do not subject the batteries to extreme low temperature conditions that may result in overheating and thermal runaway.

VDL
Chongqing VDL Electronics Co., Ltd.
Building 1-4, Pull Industrial New Area, Zhaojia Street, Kaizhou District, Chongqing, P.R.China
This unit is stined with foreign substances (sunscreen, suntan cream, etc.).
When the unit is stained with foreign substances (sunscreen, suntan cream, etc.).
When the quality may change when water enters the speaker or moisture radiator section of the unit. It is not automatic. Wipe off the moisture on its surface, and put the unit on a dry cloth to drain the collected water inside the unit. Then, dry the unit in an airy place until no moisture remains.

Notes
If the surface of the unit gets dirty, do not use detergent, thinner, benzine, alcohol, etc. to clean the unit because it will affect the water resistant function of the cap. Be careful not to allow foreign objects inside.
*Especially in cold countries, be sure to wipe off the moisture after using the unit. Leaving moisture on its surface may cause the unit to freeze and malfunction.

Die Gültigkeit des CE-Zeichens beschränkt sich ausschließlich auf Länder/Regionen, in denen es gesetzlich erforderlich ist, vor allem auf Länder/Regionen des EWU (Europäischer Wirtschaftsraum) und die Schengen-Regionen umliegend. Bei Kälte besteht die Gefahr, dass auf der Oberfläche verbleibende Feuchtigkeit ein Einfrieren und Fehlfunktionen am Gerät verursacht.

Hinweis
Die Oberfläche des Geräts verschmutzt ist, reinigen Sie das Gerät mit einem weichen, nicht abrasiven Reinigungsmittel. Achten Sie darauf, die wasserabweisende Wirkung des Geräts beeinträchtigt.
Wischen Sie Feuchtigkeit nach Gebrauch des Geräts insbesondere in kalten Regionen unbedingt ab. Bei Kälte besteht die Gefahr, dass auf der Oberfläche verbleibende Feuchtigkeit ein Einfrieren und Fehlfunktionen am Gerät verursacht.

Sicherheitsmaßnahmen
Auf ein Risiko von Fehlfunktionen zu vermeiden, vermeiden Sie beim Platzieren oder Ablegen dieses Gerätes die folgenden Orte:
• Ein Ort, der hohen Temperaturen ausgesetzt ist, z. B. unter direkter Sonneneinstrahlung oder Beleuchtung, in der Nähe einer Wärmehülle oder in einer Sauna
• In einem Fahrzug mit geschlossenen Fenstern (insbesondere im Sommer)

• Ein Ort, der heißer Luft ausgesetzt ist, z. B. von einem Föhn
• Plätzen Sie dieses Gerät auf einer ebenen Fläche. Wenn das Gerät auf einer geneigten Fläche aufgestellt wird, kann es aufgrund seiner Eigenschwingerungen umkippen oder von der Fläche fallen, was zu Verletzungen führen kann.
• Je nach den Bedingungen, unter denen dieses Gerät aufgestellt wird, kann es umkippen oder von der Fläche fallen. Lassen Sie keine Kinder mit dem Gerät spielen.
• Das Gerät ist nicht antistatisch. Halten Sie Metallgegenstände (beispielsweise Magnetbander, Uhren, Geldkarten und Kreditkarten) von der Oberfläche des Geräts fern.
• Beachten Sie dies auch, wenn Sie das Gerät mit sich herumtragen.

Warten Sie Hinweise
• Verwenden Sie das Gerät nicht in einer extrem kalten oder heißen Umgebung (Temperatur außerhalb des Bereichs von 5 °C - 35 °C).
• Wenn das Gerät außerhalb des oben genannten Bereichs verwendet wird oder verbleibt, kann das Gerät automatisch stoppen, um interne Schaltkreise zu schützen.
• Wenn Sie dieses Gerät längere Zeit verwenden, kann die Temperatur im Inneren des Geräts ansteigen, aber dies ist keine Fehlfunktion.
• Bei hohen Temperaturen stoppt der Ladeprozess unter Umständen automatisch, um die Batterie zu schützen.

• Auch wenn Sie das Gerät längere Zeit nicht verwenden wollen, laden Sie die Batterie einmal alle 6 Monate auf volle Kapazität auf, um ihre Leistung zu bewahren.
