

## CHALLENGE THE EXPECTED

We create innovations that stand out today and help build a better tomorrow. That is why we strive for change, to create built-to-last innovations that minimize environmental impact and enable new, more sustainable behaviour. So you can live on your own terms while also living up to the terms of the environment.

We have raised our ambition to make clothes last longer while reducing the environmental impact of fabric care. Read more about our 2030 goals here:
