

The image shows a standard European energy label for a refrigerator. At the top left is the European Union flag. To its right is the word "ENERG" in large blue letters with a lightning bolt symbol. Further right is a QR code. Below the flag and "ENERG" are the brand name "HISENSE" and the model number "RL3K370SAIE1". The main part of the label features a vertical scale of energy efficiency classes from A (green) at the top to G (red) at the bottom. The class "E" is highlighted with a black arrow pointing to the right, indicating the refrigerator's energy efficiency. Below this scale, the energy consumption is listed as "142 kWh/annum". Underneath, there is an icon of a refrigerator with the volume "372 L" below it. To the right of the volume is an icon of a speaker with sound waves, labeled "35 dB" and "A B C D", representing the noise level. At the bottom right of the label, the date "2019/2016" is printed vertically.
